

# Seymour Duncan®

Notes	Module Frequency Response Graph	Input Level	1KHZ Square Wave	Suggested Price List*
<p>Input (first) position. Use three settings for clean Fender sound.</p>		<p>100 mv (.1 volt)</p>		<p>\$60.00</p>
<p>Bandwidth of the Convertibles amps much wider than typical instrument amplifiers, more common to sound reinforcement designs. Unwanted lows can be led out with this module.</p>		<p>100 mv (.1 volt)</p>		<p>\$66.00</p>
<p>Free, gets around microphonic situations. Good for input position</p>		<p>100 mv (.1 volt)</p>		<p>\$82.00</p>
<p>Mode, hard icy clean, good hard drive following Group III modules.</p>		<p>100 mv (.1 volt)</p>		<p>\$66.00</p>
<p>"interesting sound" we like to call "mystery" module. Different.</p>		<p>100 mv (.1 volt)</p>		<p>\$68.00</p>
